The Canadian Society for Unconventional Resources (CSUR) is a not-for-profit society, registered in the Province of Alberta in 2002. The organization has been extremely active in encouraging the responsible development of our country's unconventional hydrocarbon resources, focusing on: Shale Gas, Light Tight Oil, Gas Hydrates, Natural Gas from Coal, Tight Gas Sands and Carbonates. CSUR provides information about these unconventional resource sources and strives to increase communication between the industry and the provincial and federal governments, stakeholders and First Nations.

## PRESS RELEASE

CSUR mission statement is: to be the voice of accurate scientific and technical information relating to exploration and development of Canada's unconventional hydrocarbon resources—and to facilitate collaborative exchange among all stakeholders.
